be granted to the South Qu'Appelle  
Agricultural Society to be used for  
exhibition purposes. Carried.

We, your Finance Committee, beg  
to report that in order to raise the  
amount estimated for current ex-  
penses of this municipality for the  
year 1886, viz. \$1,522.

We recommend that a vote of  
five mills on the dollar be struck on  
all rateable property (not including  
school rates). On School District  
No. 2, we recommend that a rate  
of nine mills on the dollar be struck  
on all rateable property within the  
said School District for school pur-  
poses. And on School District No.  
39, we recommend that a rate of  
four mills on the dollar be struck  
on all rateable property in said dis-  
trict for school purposes.

We also beg to report on the fol-  
lowing accounts: That of the Clerk,  
A. C. Paterson, for money paid as  
bounty on gophers killed, \$29.90;  
we recommend the payment of  
That of J. H. MacCall, \$8.15 for  
lumber supplied to A. M. McAllan  
for bridges, we find correct. That  
of A. Harris Son & Co., for road  
scrapers, \$52.00, we find correct,  
and recommend payment of same.

Report adopted.

Moved by Couns. Davidson and  
Thomson, that this Council appoint  
Messrs. A. M. McAllan, E. Wright  
and J. H. Craig, as commissioners to  
expend grant from N. W. Coun-  
cil on trail leading to Fort Qu'Ap-  
pelle. Carried.

Moved by Couns. Ross and Craig,  
that the petition of J. R. Mithen  
and others, in regard to levying a  
special rate on sections 21 and 23,  
township 18, Range 14, for the  
purpose of digging and curbing a well  
in the town of Qu'Appelle, be granted,  
and that a special rate be levied  
on said sections. Carried.

Bylaw No. 50 to amend Bylaw  
No. 22 was passed.

A bylaw was passed authorizing  
the Chairman and Treasurer to bor-  
row \$75 for current expenses.

A bylaw levying the municipal  
rate was read a first and second  
time and ordered to be read the  
third time, and passed at an ad-  
journed meeting to be held on the  
11th inst.

Moved by Couns. Gornell and  
Ross, that the Clerk post up three  
notices, asking for applications for  
Collector to be received up to Oct.  
2nd, salary to be \$50. Collector to  
forward bonds in full of \$20,000,  
and two copies of \$10,000, each to  
be received in application. Carried.

Moved by Couns. Davidson and  
Thomson, that the Clerk be instructed  
to post a notice in THE PRO-  
GRESS, notifying all road overseers  
that they must make their returns  
on or before September 15th.

others, asking that Council do not  
levy a special rate for well on the  
town of Qu'Appelle.

Moved by Couns. Davidson and  
Wright, that the Clerk be instructed  
to procure from the registry of-  
fice, a list of all lands deeded to the  
Ontario & Qu'Appelle Land Com-  
pany within this municipality and  
dates of transfer and registration of  
same. Carried.

Mr. Thomson took his seat.

Moved by Couns. Davidson and  
Thomson, that Mr. S. H. Caswell be  
paid the sum of \$30, as Treasurer's  
salary for the year 1885. Carried.

Moved by Couns. Davidson and  
Thomson, that Mr. A. C. Paterson  
be appointed to collect all the taxes  
in arrears and hand same over to  
Treasurer, and that he receive the  
sum of ten per cent on the amounts  
collected. Carried.

Moved by Couns. Thomson and  
Davidson, that in Bylaw as read a  
first and second time at last meet-  
ing of Council, the clause levying a  
special rate on ratepayers of town of  
Qu'Appelle, for the purpose of  
sinking a well be struck out.  
Carried.

Bylaw levying rates on the munici-  
pality of South Qu'Appelle was  
read a third time and passed.

Council adjourned.

## MANITOBA DAIRY ASSOCIATION.

The first general meeting or Con-  
vention of the Manitoba Dairy  
Association will be held at 10 a. m.  
Thursday, the 30 September, in the  
rooms of the St. Andrew's Society,  
Clements block, Main Street, Win-  
nipeg. Owing to the busy season  
and the necessarily incomplete orga-  
nization, it is impossible to give a  
detailed program of the meeting, but  
among other interesting events will  
be the delivery of the President's  
address by Wm. Wagner, Esq., M.P.  
P., and a paper entitled "A Com-  
mercial view of the Manitoba Dairy  
Products," by James E. Steen, edi-  
tor of the Commercial. Prof. Barne  
has been asked, and will probably  
consent, to address the meeting, and  
the officers would be obliged to per-  
sons willing to give paper on matters  
connected with dairying, if they will  
notify the President or Secretary.  
Treasurer a few days prior to the  
meeting.

The rooms secured for the meet-  
ing are centrally located, comfort-  
ably furnished, easily found, and will  
accommodate 200 visitors.

It is to be hoped a large number  
of farmers will be present, as no  
more important gathering of those  
interested in agricultural matters  
has ever been held in Manitoba.

## SIX MONTHS NOTICE.

Mr. Osler, of the Dominion Land  
Intelligence office has received the  
following letter of instructions from  
the Land Commissioners office Win-  
nipeg:

"Referring to sub-clause and of  
clause 29 of the Dominion Land Act  
as amended on the 2nd June, 1886,  
which requires every person who has  
obtained a homestead entry and pro-  
poses to apply for a patent for such  
homestead shall give six months  
notice in writing to the Commissioner  
of Dominion Lands of his intention to  
make application and shall produce  
such evidence to the officer who is  
authorized to receive such application  
that such notice has been duly given."

I am directed by the Commissioner  
to instruct you upon receipt of these  
notices which will be forwarded to  
you to make a list of them, giving the  
homesteaders name and the land ad-  
vised also the date of the receipt of not-  
ice and post it up in a conspicuous  
place in your office where it may be seen  
by the general public and, if desired, as  
a notice of information but not as an  
advertisement, furnish copy of same  
weekly or monthly to any newspaper in  
your vicinity.

The Homestead Inspector will be  
asked to examine these notices from  
time to time and to visit such lands  
as may be on their route of travel  
with the view of obtaining information

as to the bona fides of the intending  
applicants.

In acknowledging the receipt of  
these notices, homesteaders will be  
told to retain the letters as it will be  
necessary for them to produce the  
same when applying for patent as an  
evidence of their having complied  
with the law in this respect, and this  
acknowledgment should be attached to  
the application.

## BULGARIAN AFFAIRS.

London, Sept. 18.—Great excite-  
ment has been caused at Chatham  
over the unexpected receipt of urgent  
orders from the Admiralty to expedite  
the completion of men-of-war. Relays  
of workmen are to be employed day  
and night if necessary. This activity  
is regarded as indicating possible con-  
tinental complications.

The Post's Berlin correspondent  
says that Austria has formally notified  
Germany that Austria will oppose any  
attempt by Russia to encroach upon  
the liberties of the Balkans. A special  
messenger has started for Strasburg  
with important despatches for Em-  
peror William.

The Austrian newspapers, while  
deploring the possible necessity of  
war, agree that it must be cheerfully  
resorted to if it will prevent greater  
calamities in the future.

The Cologne Gazette says that  
twenty Russians are going to Bulgaria  
to occupy the highest military posts.

There was a slight fall of snow at  
Helen, Mont., on Sunday night.

Crops in the western portions of  
Scotland have been severely damaged  
by unusually heavy rain.

It is said England will abandon  
Port Hamilton, as it would be a source  
of weakness in time of war.

The missing Mrs. Schilling has  
gone to Montreal to spend a year in  
the Sacred Heart convent.

It is reported that Lieut. Col. Ross  
has resigned the command of the Gov-  
ernment's Foot Guards.

A fire involving a loss of \$40,000  
occurred on Friday night at Tickle's  
Saw's furniture warehouses, Belleville.

A Madrid paper says Germany has  
abandoned her right to establish a  
naval station on the Caroline Islands.

Russian troops are being shipped  
from Odessa, ostensibly for the  
Crimia, more probably for Bulgaria.

Prof. Hammond, of Oregon, pre-  
dicts cyclones, earthquakes, and tem-  
pests for the 25th, 27th, and 28th  
inst.

Speculators are digging on the Curry  
farm, Sandwich west, in search of a  
clue of gold said to have been buried  
there during the Patriot war.

It is understood that C. T. Bates,  
who is now on his way home from  
England, has been successful in float-  
ing the debentures of the Northwest  
Central.

The diseased cattle at Alvinston  
have nearly recovered. The Govern-  
ment inspector is of opinion that the  
disease was due solely to local causes,  
and that there was no contagion.

In consequence of a compromise  
having been effected by Mr. Farnell  
and the Government with regard to  
the latter's Land Bill, it is believed  
the House will adjourn on the 15th  
instant.

John Dunn, of the Interior Depart-  
ment, at Ottawa, hired a boat at  
Gannock, on Sunday, and has not  
been seen since. It is feared he has  
been drowned, as the boat has been  
found, with both oars gone.

Chicago, Canadian American: Sir  
John Macdonald is returning from a  
most enjoyable visit to the towns and  
cities along the main line of the Cana-  
dian Pacific. He has been away  
about one month and has met with a  
cordial reception at every stopping  
place. His visit to British Columbia  
was particularly pleasant and profit-  
able, more of both political parties  
were out there, as elsewhere, to do  
him honor. It is a long time since he  
has had such a happy trip.

But the "Old Man" deserved it, and  
like a faithful husband and good friend,  
he took his wife along to share in the  
pleasures of this historical trip across  
the continent.

## N. W. COUNCIL.

SESSION OF 1886.

Full and Unbiased Reports! of the Proceedings will be given in

## The Qu'Appelle Progress.

Session to open about the 13th October.

Our reports will be characterized by fairness, and will be fuller than ever the Council proceedings have been reported heretofore. The Progress is determined to lead all others in its attention to all matters concerning the Northwest. Though only a few weeks established at the Session of 1885, its editorial articles were characterized by a spirit of independence which won for it the confidence and respect of all classes, and made for itself an immediate place in the front rank of journalism. Send in your subscriptions at once and do not delay till the Session begins and then miss the first part of the proceedings. One dollar for one year, payable invariably in advance.

The name of the Northwest Central Railway has been changed to the Great Northwest Central Railway. When did it achieve greatness?

Mr. G. R. Pugsly, President of the Regina and Long Lake Railway Co., is on his way to London, England, to further the financial interests of the road. The Co. hope to complete the line to Saskatoon next season.

Col. Gilder and Mr. Griffith have just started from Winnipeg overland to try to reach the North Pole. They will travel by the aid of the Eskimo Indians after going beyond the Hudson's Bay, and propose to live, as do the Eskimo, on the game to be found on the journey.

Mr. Colter, the Reform candidate, has been elected in Haldimand by a majority of 117 over Mr. Merritt, Conservative. Much interest was centered in this election, and it was thought the Riel cry that has been raised in the older provinces would have redeemed that stronghold from the Grits. The result, however, shows that there has been very little change in the straight party vote. A just sentence having been mostly carried out against an arch rebel, it is difficult to understand what good reasons there are for making the Regina scaffold a factor in an election. Certain it is if there had been no French blood in his veins, Riel's name or this would have been almost forgotten. The Conservative party is to be congratulated on the fact that the Riel cry was not raised by them, but by their opponents.

Russian intrigue caused a revolutionary change in the Bulgarian Government, and the forcible deposition of Prince Alexander from the throne. The army and the people called the Prince back. By further Russian interference Alexander has been led to abdicate the throne and leave the country, and now it is thought the Bulgarian National Assembly will re-elect him King. In that event Alexander says he will return and resume the throne.

The Regina people have met and passed a resolution approving of the Hudson's Bay route. There was an enthusiastic meeting and the Board of Trade and the Town Council were requested to take action in assisting Mr. Hugh Sutherland, the President of the Company, who is now in England, by resolutions of support, and Mr. J. Secord, M. N. W. C., was requested to lay the matter before the Northwest Council.

As a result of Hon. Mr. Foster's inspection of the Pacific coast during his recent visit to British Columbia, a number of important improvements will be made to lessen the dangers of navigation in the channel. Mr. Foster also took the depositions of the crews of the Canadian vessels seized in Alaskan waters by the American authorities for alleged violation of the seal fishery laws.

The three-mile limit should not be very obnoxious to the Americans. They enforce a three-mile limit in Maine; they will not allow a British vessel to fish in Chesapeake Bay, thus recognizing the Canadian interpretation of the headland question; they capture Spanish fishermen within twelve miles of the Florida coast; and now they have seized Canadian schooners in Behring's sea, seventy miles from the Alaska shore. A nation with such modest pretensions as those of the United States may call a seizure within the Canadian three-mile limit an outrage; but then it looks as if the application of such language to the case were a misuse of the mother tongue.

Those who believe that a great European war will follow the death of Emperor William will find additional ground for their belief in the activity which the great Powers are displaying in the rearmament of their troops. Special attention is being paid to the military arm, and the single breech-loader is being gradually superseded by the repetition or magazine rifle. Not long ago a sensation was caused by a celebration at the Spandau army over the completion of the last of the 100,000 repeating rifles for German troops. During the summer 2,200 men have been employed at Erfurt, Spandau and elsewhere in converting the Mauser rifle into a repeating arm, at the rate of 1,200 daily. It is announced also that by this time 60,000 repeaters are in the hands of French troops, and a French paper says that the conversion of the two hundred thousand French rifle will be duly celebrated. Austria is substituting the Mauser rifle with a detachable magazine, for her Wend gun, Norway and Sweden have the Jorgensen magazine rifle, with a very long range, and Italy and Switzerland have the Vetterli rifle, of similar pattern. The expense of such a change is enormous, and its significance is only too apparent.

When trade grew slack, and bill-fell due, the tradesman's face grew long and blue; his dreams were troubled through the night with shuffling ballads all the night. At last his wife unto him said, "Rise up at once, get out of bed, and get your paper, ink, and pen, and say these words unto all men: 'My goods I wish to sell to you, and to your wives and daughters too; my prices are so very low, that all will buy before they go.' He did as his good wife advised, and in the paper advertised. Crows came and bought of all he had, his bills were paid, his dreams were glad; and he will tell you to this day how well did printers' ink repay. He boasted, with a knowing wink, how he was saved by printer's ink.

## OUR SOIL.

FOR THE FARMERS.

We are desirous of aiding our agricultural readers by the publication of anything that will tend to throw light on the best method of utilizing the magnificent soil of the Territories, and would solicit contributions for this column.

The Progress will be very glad to give space to any hints, suggestions or facts that will help to develop the important interests of agriculture in the Territories. Let nobody refrain from sending us a short note because they have nothing great to write about. Let us have your experience on any point of interest and we shall gladly publish it for the common good.

## BETTER FARMING NEEDED.

The general prevalence this year of short crops in the Northwest resulting from the continued drought and exceptionally hot weather, induces the enquiry—can anything be done to prevent a recurrence of such a calamity in the future? Having travelled through the districts of Assiniboia and Saskatchewan over 1000 miles, during the month of August, off the line of railway, and seeing a large part of the settled portions of the territories. I have been struck with what seems to be a great mistake with many of our farmers. Many of them seem to think that any kind of plowing will do for this country. Hence for crooked, uneven, broad, flat and shallow furrows, no land can surpass what I have seen. And as to harrowing that too has been scantly done in putting in many of the crops. I will not say that no good farmers have had poor crops. But so far as I have been able to ascertain the best crops have been harvested where the land has been best prepared.

When we think of it for a moment, anyone must see that if there be only about two or three inches of cultivated soil overlying the hard, tough roots of the old prairie sod; there is nothing to prevent the scorching of the crops growing there. Whereas, if there be a good deep plow, it will very much longer resist the effects of the drought. I saw several instances of the value of deep plowing last month. One case was a field of about twenty acres, a line was clearly drawn from one end of the field to the other dividing it into two sections; one part contained about 6 acres, the other 14. On the 6 acres the farmers said we had twice as much crop as on the 14. The stubble on the 6 acres was almost perfectly free from weeds, the other was red with dried wild buckwheat. "What is the reason of this?" I asked. "I know of no difference," said he, except that the smaller piece was plowed last summer a good depth, the other only about three inches. A part of the 6 acres was in garden, and better beets, potatoes, carrots, beans and peas could hardly be desired. The only real good piece of turnips I have seen was on another piece of land that had been plowed 6 inches deep last fall. In ordinary summers it will matter less, but in order to resist the drought I have seen, from what I have seen, that we must plow deeper and harrow more thoroughly and use the roller. But deep plowing should always be done in the fall. It would never do to turn up a new subsoil to form a second bed, it must have the frost of the winter to pulverize and make it fit for the seed.

I am yours in the interest of our common country.

WANDERER.

The Govt will recognize the Bulgarian Regency, the union and independence of Bulgaria and Rumania, and will appoint a Russian military plenipotentiary resident at Sofia.

In the vicinity of Havana large lakes have been formed by the outflow from several newly appeared springs. Many plantations and factories under water and a neighboring village is threatened.

TO THE EDITOR OF THE PROGRESS:

SIR:—I find in the minutes of the Wolsley Council meeting. Published in your issue of the 9th inst what purports to be an abstract of a letter from J. W. Ford.

Since few Councils if any, publish the letters they receive, as they do not, properly speaking, form part of their minutes, it is easy to see that there is an animus against me in publishing the said abstract as a minute.

If you will kindly publish Mr. Ford's letter to me, requesting me to make certain measurements and report to him, also my telegram in reply to said letter, (both of which I inclose for publication) the public will be able to judge whether Mr. Ford could have gathered from the telegram what the said abstract attributes to him.

Had Mr. Ford been anxious to build the mill, my telegram would have encouraged rather than repelled him as the work promised on the dam and the hauling of water, would have amounted to \$500.

Our Council is notorious for doing stupid things, but I did not think that the Clerk would follow in their wake.

Yours truly

G. L. DODDS.

Markdale, Ont. Aug 4th 1886. G. L. DODDS, Esq., Wolsley.

Dear Sir:—On my arrival from Toronto last evening, yours of the 29th July and sample of wheat, was to hand. The wheat is good, but I am afraid the frost of Monday and Tuesday night has damaged the grain not out.

I have arranged with Mr. Cane to put in the machinery and complete the mill by the 25th Dec if we can get a satisfactory water supply. I consulted Mr. Doty, engineer, as to Mr. Dill's plan. Mr. Doty says there must be a pump at the well, with a small engine to drive it, or it could be driven by a shaft, or rod from the mill; that plan will not do, the engine takes 500 lbs. of water in 12 hours, that's a pretty big leak, my plan is to build the mill at the bend of the creek, where the deep water is, dig a well about 15 ft from the edge of the bank, the engine house to enclose the well, the elevator could stand alongside of the other elevator and be driven with wire rope from the mill. I do not think the distance can be over 800 ft, I hope it may be less, will you kindly get the depth of water at the place you pointed out to me, and the distance to the track where the elevator could stand, is there water at that place all winter? I could not think of going on with the mill on the site chosen by Mr. Dill after the decided opinion given me by Mr. Doty on pumping water. Can the Council bill the bill of water supply to Wolsley? You could get water from the engine house if the distance from the place mentioned is not more than 800 ft. from the place where the new elevator will stand, the wire rope will work all right, can you get the land to build on at the Creek bank? Perhaps Mr. Dill will kick, now that I cannot take foundation and pay him \$200, I would buy the stone off him at their value. If Mr. Dill will assign to me, and the Council will do the same for me as they offered Mr. Dill I would go on with the work at once.

Yours truly

J. W. FORD.

TELEGRAM.

Wolsley, Assa, Aug. 11th, 1886. J. W. Ford, Markdale, Ont.

Dill assigns without consideration, Cable, nine hundred and thirty. Water, ten feet. Farmers kick at separation of mill and elevator, both must be on site proposed for elevator or vice versa with siding. Wolsley builds dam and hauls water till spring; ditch six hundred feet. Council will grant request Saturday. (Sd.) G. L. DODDS.

In 1883 there was found on the Bell Farm, at Indian Head, Assiniboia, a single stool of wheat growing in one of the fields containing 79 perfect ears, and an estimated 4000 grains. From the same farm came a stool of oats with 27 heads, and a stool of bearded wheat with 20 heads. These yields wonderful though they are, may have been exceeded, but they show the extreme richness of a soil that can give such result with the simplest cultivation, without a pound of manure.—Emigrant.

Eighteen hundred and eighty six began on a Friday, will end on a Friday, and contains fifty-three Fridays. Four months in the year have five Fridays. Five changes of the moon occur on a Friday, and both the longest and shortest days in the twelve months are on Friday. This might, indeed, be termed a Friday year.

"THE QU'APPELLE PROGRESS,"

Manitoba and Northwest Territories lead Canada in suitability for Sheep Keeping; and yet our farmers go but slowly into it. Those who are in it report good profits and small losses, ready market, and little trouble, expense or risk. Not only on the high land, but also on lower districts these animals thrive, though the experts say they cannot or ought not, but they do. Mr. Hickey, of Stonewall, J. Stave, Smith, Beauséjour, M. Fitzgerald, Ridgeville, J. G. Sturgeon, Souris, Henry Proctor, Woodlands; and many others who might be named, state that sheep are the most profitable stock they have, are the least trouble, have the least losses, are least expensive, and are not subject to any diseases or danger they know of, after several years' experience here. The dry winter and springs are extremely favorable to sheep, while the varieties of rich grasses give a meat and wool of the first quality. It only needs the stocking up with the proper breeds (black face grades) to insure us a leading position in the production of these two eagerly sought for and valuable articles of commerce.—Emigrant.

Hop growing will some day become an extensive and valuable industry in Manitoba, where the vine grows wild in great luxuriance and perfection, the lupuline, the essential principle, being unusually large and strong, though a little rank, perhaps, as most wild fruits are compared with tame. The latter fault would, however, disappear quickly under cultivation, and as the removal of this plant is easily and successfully done, the cultivation upon any scale desired is merely a question of when some intelligent enterprising gardener or farmer will set about it. Both climate and soil are favorable to hop growth here, and to curing the flower, while the demand already exists for a considerable supply, the cheapening of which by local growth, would widen the consumption and open up a new trade channel. The cultivation is simple, the root sets are easily and cheaply had, poles are abundant and could be had cheap, as there is no demand for them for anything else at present.—Emigrant.

An effort is being made by the Countess De Buzze de Gerpinnes for the establishment of a colony of Belgians in the Northwest. Communications have, it is said, been opened with Archbishop Tache, in order that full information may be supplied. The desire of the Countess is to settle Belgians in a district where their own language is spoken, and where they may worship together according to their own form of religion.

## WEBSTER'S PRACTICAL

Probably all our readers have occasion to use a dictionary every day. In some cases words cannot be correctly spelled. In others, the pronunciation is difficult, while in still other cases the meaning is not understood. This is true, not only of children and of the uneducated, but of many of the most intelligent as well, and every one who attempts to do without Webster's Practical Dictionary at all times, do without one of his best opportunities for intellectual improvement.

Webster's Practical is an entirely new work by the editors and publishers of Webster's Unabridged, and contains more than twice the amount of matter and illustrations ever before offered for the price.

I, now, I feel that I have found the best of all dictionaries, and I am sure that you will find it so too. It is a book that will be of use to you every day, and it is a book that will be of use to you every day. It is a book that will be of use to you every day, and it is a book that will be of use to you every day.

It is a book that will be of use to you every day, and it is a book that will be of use to you every day. It is a book that will be of use to you every day, and it is a book that will be of use to you every day.

## HOME & GOSSIP.

### QU'APPELLE.

The building boom continues unabated.

The Roman Catholic Church is nearly completed.

Wood wanted at THE PROGRESS office for subscriptions.

The proposed public well has been shunted by the new reservoir.

An emergency meeting of Qu'Appelle Masonic Lodge was held on Tuesday evening.

We publish the Wolseley exhibition prize list this week. Qu'Appelle show list will appear next week.

The instruments for our brass band have been shipped and soon we may hear the toot, toot of our musicians.

It is said that a detachment of Mounted Police will occupy the immigrant building here during the coming winter.

The grading across Squirrel Coulee on Seventh Avenue is completed. It will aid in forming a new water reservoir.

The C. P. R. Co. has removed their engine and pump house to the new well where there is an abundant supply of water.

Qu'Appelle needs another terrace. The one just completed is full of tenants, and there were applicants enough to fill another.

THE PROGRESS would like to know why the ditch on Tenth Avenue was not deepened by the statute labor so as to drain the street in the spring.

To give the farmers a chance we will accept for subscriptions to THE PROGRESS almost any product of the soil they have to dispose of at market value.

The frame of Mr. Murdoch's new building just north of THE PROGRESS office is up, and work is being rushed on it by the contractor Mr. J. B. Robinson.

Work has been commenced on the erection of a wholesale grocery warehouse for Mr. S. H. Caswell. It is located between the mill and immigrant building.

Mr. S. H. Caswell returned from his trip east on Thursday night last. He visited Toronto, Montreal, Quebec and other eastern trade centres, and reports prospects at good times, there having been a good crop this season. On stepping from the train at the station here he was met by a large number of his friends who cordially welcomed him back home.

At the Leland: Jas. Duncan, Minneapolis; P. MacArthur, W. Burke, Hugh D. Tulloch, H. Scamman, Jas. Young, Dan. W. Mills, L. C. MacIntyre, R. N. Toms, Winnipeg; A. C. Stewart, Arthur Bell, Pringle, Regina; Frederick Smith, Sells; J. P. Doran, Ottawa; J. A. Kananen, Indian Head; Jno. Curry, McLean, Edward Jackson, N. W. M. Polley; J. Ross Chubbart and wife, Jas. B. Mack, Robt. Goodfellow, Prince Albert; Louis Dossant, Lebert; A. McDougall, Grenfell; Walter Palford, Stonewall.

It having become known that Mr. Arthur Empey, brother of Mr. A. S. Empey, merchant of this place, was about to leave for San Francisco, a number of his friends determined to give him a ball as a send-off. They accordingly organized with Mrs. Osler and Mrs. Empey as lady patrons, and the party was held on Monday evening last in the immigrant building. There were present a goodly number of the elite of Qu'Appelle and Indian Head, as well as from this place. Many of the ladies were splendidly dressed, and the gentlemen were indefatigable in ministering to the enjoyment of their partners. The rooms were tastefully decorated, and everything possible was done to make the occasion a most enjoyable one. It was a very select party and passed off to the fullest satisfaction of all concerned.

### MR. JACKSON RESIGNS.

We regret to have to publish the resignation of Mr. T. W. Jackson from the position of representative for this District in the Northwest Council. Though we have differed with some of Mr. Jackson's publicly expressed views, we have no hesitation in saying the District is losing an able and valuable representative, and it will be difficult to find as competent a man to fill the vacancy. An election will no doubt be ordered immediately, and we trust a good man may be elected. It is to be hoped that in the contest before us all sectional and petty bickerings will be avoided, and that all will endeavor to choose a man that will prove a credit to the constituency, and will work for the best interests of the whole District.

### MR. T. W. JACKSON'S Valedictory.

TO THE ELECTORS OF THE DISTRICT OF QU'APPELLE.

GENTLEMEN,—I regret that circumstances have compelled me to place my resignation as a member of the Council of the Northwest Territories in the hands of the Lieutenant-Governor. My time, as many of you know, has been so taken up during the past summer with private concerns and also with public enterprises with which I am connected, that I have not been able to pay what attention to your requirements that your confidence in me seemed to demand. This has been the cause of much concern to me, and now that a most important session of the Council is approaching, I have thought it better in your interests to resign the position I now hold at your hands, in order that some one with more time at their disposal can be sent there to represent you. I have delayed the step I am now taking as long as advisable, in order if possible to arrange my affairs so as to be able to attend the next session of the Council which would be the last for which I was elected. I now find this impossible, except at a cost which I and interests involved could not afford.

While now severing my connection with you in a representative capacity, please believe that in whatever concerns you or the welfare of the Northwest you shall have any support I can give you. This you are entitled to from me because of the many kindnesses you have shown me and because of the repeated confidence you have expressed in me. Please accept gentlemen, in this manner, the thanks I would express to you personally, were I able, for the generous support and encouragement you have already extended to me as your representative in the Northwest Council.

And believe me your obedient servant,

T. W. JACKSON.  
Fort Qu'Appelle, Sept. 13th, 1886.

Mr. Arthur Empey left by Tuesday evening train for the west on his way to San Francisco. He will stop over a few days at Calgary.

Dr. Bell, lately from Hampshire, England, has purchased through Mr. F. L. Osler the east half of section 5, 18, 14. He has contracted with J. B. Robinson for the erection of a commodious dwelling and will engage in farming.

At the Queen's: W. R. Passy, W. Sutherland, Fort Qu'Appelle; H. F. McMillan, J. H. Brown, W. Hargrave, D. McMillan, Frank Stephens, W. Chilcott, J. Lamb, O. B. Davidson, Winnipeg; W. Kirkland, A. R. Robertson, H. J. Eberts, Miss Eberts, Mrs. Risdale, W. R. Robertson, Miss Crawford, W. Ferguson, Indian Head, H. J. Perkins, Regina; T. H. Wilson, Moosecum; Jas. McConnell, A. W. McConnell, Lechute; J. W. Hughes, Cavalier; R. C. Hickson, H. A. Atkins, G. B. Ambury, Toronto; A. Fitzpatrick, Sydney; A. J. Brabazon, G. H. Brabazon, Heritage la Prairie.

The Roman Catholic Bishops of Ireland have memorialized the Government for relief measures.

Several Montreal importers are appealing to Ottawa against fines imposed by the Customs appraiser.

The troops engaged in evictions at Woodford, Ireland, have refused to do any more such dirty work.

In the British House of Commons the Postmaster-General has announced the Government had under consideration the establishment of a mail route from Ireland, via Canada, to India and the far east.

MINNESOTA, Sept. 8.—General Superintendent Baker returned this evening from Rapid City, having driven over the line of the Saskatchewan & Western to that place. Grading on this line is being pushed forward with energy. Trackage will possibly commence within a week. Settlers south can hardly credit the fact that the long looked for railway is about to reach them, and are loudly praising the Saskatchewan & Western Company for the bona fide road that is at last being built through their country.
